

Eaton's Viking Outboards Model Year Guide

1930-1970

Compiled by Richard L. Paquette,

January 2007

Eaton's Viking Outboards were manufactured by several companies over the years. Eatons sold a Muncie Gear Works motor from 1930-1932. In 1933 they began to purchase Evinrude built motors. These motors were the first to sport the "Viking" name, which emerged as the store's brand. Evinrude merged with ELTO and Johnson, and began producing off brand motors through their third division Gale. Eatons sold Gale built motors manufactured in Peterbrough ON from 1946-1964. Eatons began to purchase Chrysler built motors, when the Outboard Motors Corporation closed their Gale division in 1964.
