

## Club History

Outboard motors have been manufactured for over 100 years. Therefore, it is no surprise that people became interested in collecting antique outboards. Interest became so widespread that by October 1966, membership had increased to more than 200 members. Club growth continues with membership exceeding 2,000 dedicated members from 10 countries.

## Club Publications

You'll get full bore coverage on outboarding subjects in the quarterly club magazine.

### "The Antique Outboarder"

Enjoy history, restoration, technical reports, vintage outboard racing, special features, chapter news and classified section. Buy, sell or trade motors, parts and literature.

## Club Website

Enjoy access on local chapter events, resources, technical forums and discussion boards.

## The Antique Outboard Motor Club

Our mission is to create from battered, worn, grease covered selection of compatible parts. Challenge of breathing life into these parts ending with motor to enjoy and be proud of.

You reached this point by searching for scarce parts, owner's and instruction manuals. Things available through club resources with membership support.

Chapter meets can be wet or dry meet. Many allow test running of motors, parts swapping but always include shop talk with friends having same interests as you.
